

DEMO FAILURE VENDOR / BIDDER EVIDENCE

AI Bid Compliance Verification – Negative Test Case

This fictional document is created for software demonstration/testing. It is not an official GeM document or genuine vendor certificate.

1. Bid Reference

Field	Vendor Submission
GeM Bid Number	GEM/2026/B/7846907
Bidder Name	RapidTech Traders Pvt. Ltd. (Demo)
Bidder Type	Trader / Reseller – Demo
Item Category	AutomationTestCategory_DoNotUse (Q3)
Quantity Offered	4

2. Technical Evidence – Intentional Failure

Tender Requirement	Vendor Evidence	Expected Result
Ungroup testing: Yes / No	Yes	✓ Compliant
Ungroup testing1: Numeric	42	✓ Compliant

3. Delivery Requirement – FAILURE

Tender Requirement	Vendor Submission	Result
Delivery within 15 days	30 days	✗ NON-COMPLIANT
Quantity	4 units	✓ Compliant
Consignee	Shubham Pandey	✓ Matched

Failure reason: The tender specifies a delivery period of 15 days, while this vendor commits to 30 days.

4. MSE Purchase Preference – INSUFFICIENT EVIDENCE

Tender Condition	Vendor Submission	Result
MSE preference available	Requested	■ Review
Valid Udyam Certificate	Not provided	✗ Evidence Missing
OEM / Service Provider evidence	Trader / Reseller declared	✗ Not eligible for MSE preference

5. Missing / Invalid Supporting Documents

1. GST Certificate – Not uploaded
2. PAN – Not uploaded
3. Udyam Certificate – Not uploaded
4. OEM Authorization – Not uploaded
5. Technical supporting document – Not uploaded
6. Delivery commitment document – Indicates 30 days

6. Compliance Engine Expected Output

Check	AI Finding	Status
Technical: Test field	Vendor says Yes; allowed	✓ PASS
Technical: Numeric field	42 is numeric and allowed	✓ PASS
Delivery	Required 15 days; vendor says 30 days	✗ FAIL
MSE evidence	Udyam certificate missing	■ REVIEW / FAIL PREFERENCE
OEM / Service Provider	Trader/reseller declared	✗ MSE PREFERENCE FAIL
Overall bid compliance	Mandatory delivery condition failed	✗ NON-COMPLIANT

DEMO ONLY: This file is deliberately designed as a negative test case so the application can demonstrate that it detects a vendor's non-compliance instead of always returning PASS.
