The uploaded bid lists these quantities and refers to separate Specification/BOQ files for detailed technical specifications. Those linked files are not part of the uploaded 9-page document, so this demo does not invent technical specifications.

4. BidNexusAI Expected Result

Overall: 100% COMPLIANT

The synthetic vendor evidence satisfies every eligibility criterion explicitly available in the supplied bid: bidder turnover, 3-year experience, OEM turnover, required document categories and past performance. For a real verification, the separate technical Specification/BOQ files should also be uploaded so technical compliance can be checked.

DEMO DISCLAIMER: Synthetic testing document only. Not a genuine company certificate, financial statement, OEM authorization, government record or GeM submission.
